

# Enerlites®

## CATEGORY 5E JACKS

MODEL NO: 6105

### DESCRIPTION

The ENERLITES 6103 blank keystone jack insert provides a simple way to disguise unused openings in a keystone jack wall plate for a professional looking installation. These keystone inserts are compatible with wall plates with standard sized keystone openings including ENERLITES 1 to 6 port wall plates. Made of polycarbonate thermoplastic they are manufactured to provide durability, flexibility, and resilience to bending and high-impacts.

### FEATURES
