DECORATOR SELF-GROUNDING RESIDENTIAL GRADE RECEPTACLE

MODEL NO: 62001

DESCRIPTION

Residential grade receptacles are rated for variety of standard configurations. Each receptacle is equipped with break-off plaster ears and tabs to allow for easy alignment and 2-circuit conversion. All decorator receptacles are designed with thermoplastic construction and feature a shallow build for maximum wiring room.

FEATURES

- Sturdy galvanized steel strap with a wrap-around design ensures secure assembly.
- Self-grounding automatically bonds to grounded metal enclosure.
- Durable thermoplastic build for extended use in residential settings.
- Back wiring terminals accommodate solid and stranded wires for easier installation.
