## DOUBLE POLE TOGGLE SWITCH COMMERCIAL GRADE HEAVY DUTY

MODEL NO: 82300

### DESCRIPTION

The ENERLITES 82300 commercial grade toggle switch is designed for demanding applications where durability and performance are key. The switch features a robust exterior housing made from high performing thermoplastics that can withstand harsh environments and features self-grounding mounting tabs. Impact resistant and easy to install, ENERLITES toggle switches are the ideal choice for any commercial setting.

### FEATURES

- 120/277V rating ideal for fluorescent lighting fixtures typical in commercial applications
- Side wired terminals; use 12 or 14 AWG copper wires only
- Large head double-drive combination screws (Standard, Phillips) for fast wiring
- Removable yoke tabs for ideal alignment
- Self-grounding
