

SOLAR PATH LIGHTS

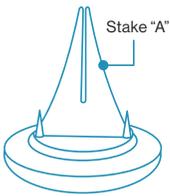

Installation Manual

These waterproof Path Lights are perfect for outdoor use and provide bright, decorative light for exterior landscaping at nighttime. Each light includes an integrated Dusk to Dawn sensor that automatically turns on or off based on detected light levels.

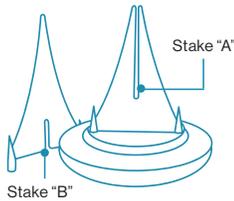

Note: Allow the battery to charge for 6-8 hours before the first use. In the event of extreme weather, bring your light indoors. For the best charge, ensure the solar panel stays clean.

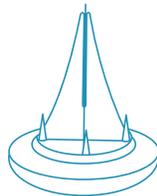

EASY INSTALLATION

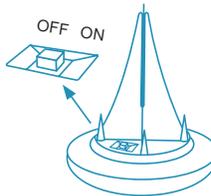

1. Attach Stake "A"

2. Attach Stake "B" into the slot on Stake "A".

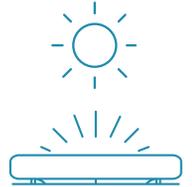

3. Final Assembly

4. Push power button to turn on

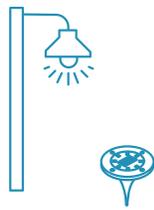

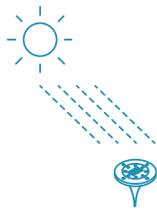

5. Insert light fixture into soil

6. Charge in direct sunlight for 6-8 hrs

FOR BEST RESULTS

For best results, place in direct sunlight

Limited sunlight results in shorter working time

SPECIFICATIONS

Power Supply	Built in Ni-Mh battery
Battery Capacity	600mAh
Charging Time	6-8 hours (direct sunlight)
Working Time	8-10 hours (fully charged)
Housing	Stainless Steel
Warranty	1 Year
Battery Voltage	1.2 VDC

TROUBLESHOOTING

LIGHT WON'T TURN ON?

1. Test the light by turning it on in a dark room. If it does not light up, charge it for a full 6-8 hours in direct sunlight, then try again.
2. If the light works in a dark room, ensure the lights outside are not obstructed by a tree, bush, or building during the day. At night, make sure the light is not under a light source such as a porch lamp or street light.

WARNING

To reduce the risk of fire, electric shock, or physical injury:

- This product should be installed by a person familiar with the construction and operation of the product and the hazards involved.
- Abide by regional and local laws or regulations.
- Check for shipping damage prior to install. If the product is damaged, do not use it.
- Proper grounding is required to ensure safety.
- This fixture should not be installed directly over a heat source, on a radiant heating ceiling, or on the surface of combustible material, nor should this light be covered by flammable material.
- Use safety precautions. Safety eyeglasses and gloves are recommended.
- Sunco Lighting does not warrant the compatibility of this fixture with any bulbs or products other than the ones provided.

FCC NOTES

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
